BRISTOL COVE BOAT STICKER PLACEMENT

STICKERS IMPROPERLY PLACED MAY BE SUBJECT TO A FINE OR PENALTY BY THE BOARD.

Regulations require that all boats belonging to Bristol Cove residents be registered annually. Evidence of current registration is in the form of a numbered sticker which is permanently affixed to the left (port) side of the boat at the rear, visible from outside the boat. Please see diagram for placement. If you choose to cover your boat, please ensure substantial portion of the sticker (enough to verify compliance) is visible when the cover is on the boat.

Following these requirements will significantly reduce false reports of noncompliance, saving considerable time, expense and aggravation to you and your association.
